1974 - 1975 Fact Book on Higher Education in Michigan

Errata

1. page 21 - The total of the 1972 column is reported as 50,658 and it should be reported as 50,375.
2. page 27 - The total of the 1974 column is reported as 47,733 and it should be reported as 48,205.

PREFACE

We are pleased to present this document containing statistical information on Michigan colleges and universities as part of a continuing effort to disseminate information about higher education. This is one of a series of publications being produced by the Higher Education Management Services in conjunction with the U.S. Office of Education through its annual Higher Education General Information Survey (HEGIS IX - 1974-75) and the Compliance Reports from the Office for Civil Rights.

Information presented in this report covers degrees and awards, enrollments, facilities, finances, racial-ethnic enrollments, and salaries and tenure. The information was obtained from forms completed by the institutions and collected by the Department as part of its contribution to these surveys.

We are grateful to institutional officials for their diligence in completing the forms from which this information was drawn.

JOHN W. PORTER
SUPERINTENDENT OF
PUBLIC INSTRUCTION

FOREWORD

While reviewing the data contained in this report, it is important to keep the following points firmly in mind:

1. The data is presented as reported by the institutions, subject to review for reasonableness and internal consistency.
2. Due to institutional procedures, survey reporting requirements and/or procedures used in aggregating data elements, the numbers reported here MAY NOT be compatible with each other under a particular heading. Numbers can only be compatible if they are derived in exactly the same way from identically defined institutional data elements.

Of these considerations, the second is the most important. Comparisons between two figures that appear to measure the same item, but actually were derived in different ways, do an injustice to the institutions involved and will lead to erroneous conclusions.

Keeping the above in mind, the following tables should be of interest to the higher education community and others interested in it.

PART I

DEGREES AND AWARDS

2.

DEGREES AND AWARDS

Definitions of Selected Terms

Bachelor's Degree: Degree requiring at least four but not more than five years of academic work.

Master's Degree: Degree requiring one, or sometimes two, academic years of work beyond the bachelor's degree. This includes the Education Specialist degree.

First-Professional Degree: A degree which meets all three of the following criteria: (1) it signifies completion of the academic requirements to begin practice in the profession; (2) it is based upon a program which requires at least two years of college work prior to entrance; (3) a total of at least six academic years of college work is required to complete the degree program, including prior required college work plus the length of the professional curriculum itself.

Doctoral Degree: Includes such degrees as Doctor of Education, Doctor of Juridical Science, Doctor of Public Health, and the Doctor of Philosophy degree in any field. This category does not include those counted under First-Professional degree.

Source of Data: HEGIS IX, 1974-75, Office of Education Form 2300-2.1.

PART II

ENROLIMENTS

ENROLLMENTS

Definitions of Selected Terms

Degree Credit Students: Total headcount of all students taking courses for credit.

Full-Time Equivalent: Total of those students registered full time plus the number of credits generated by part-time students per semester divided by 15.5. (Private institutions may determine this slightly differently.)

Full-Time Student: Those whose academic load - coursework or other required activity - is at least 75% of the normal full-time load.

Normal Full-Time Load: Determined by dividing the total number of credits required for completing the program by the number of terms required to obtain them.

Source of Data: HEGIS IX, 1974-75, Office of Education Form 2300-2.3.

---

*Individual institutions, branches, or other reporting units are categorized on the basis of the programs in those units without regard for the category of the parent, or other related units, although the relationships among units are recognized in the categorization. The six categories and their code numbers are:

Code 1 - A university unit, excluding its 4 year and 2 year branches
Code 2 - A 4-year unit which is not a university or part of a university, excluding its 2-year branches
Code 3 - A 2-year unit which is not a branch or campus of a university or any other 4-year institution
Code 4 - A 4-year branch of a multicampus university
Code 5 - A 2-year branch of a multicampus university
Code 6 - A 2-year branch of a 4-year multicampus institution which is not a university

In the table above, these six categories are shown both separately and in combination to make up the traditional three way classification of universities, other 4-year institutions, and 2-year institutions. Also, data are combined in still a different way to show enrollment in all 4-year (nonuniversity) units and in all 2-year units, without regard for relationship to other units. Combinations of the six basic data codes are shown below:

Universities - Sum of codes 1, 4, and 5
Other 4-year institutions - Sum of codes 2 and 6
2-year institutions - Code 3 only
All other 4-year units - Sum of codes 2 and 4
All 2-year units - Sum of codes 3, 5, and 6

The institutional level categories represented in the tables that follow are based on university units excluding other 4 year and 2-year branches, other 4-year institutions and their 4-year branches plus the other 4-year branches of universities, and 2-year institutions plus the 2-year branches of all levels of institutions.

**Of the 8 nonrespondents, 6 are Rabbinical schools in the State of New York, whose combined enrollment was 1,755 in 1973; the other 2 are located in Nevada and Puerto Rico. For the nonrespondent institutions, 1973 enrollments have been substituted into the 1974 totals.

PART III

FACILITIES

FACILITIES

Definitions of Selected Terms

Assignable Square Feet: The sum of all areas on all floors of a building assigned to, or available for assignment to, an occupant; including every type of space functionally usable by an occupant (except those spaces defined as custodial, circulation, mechanical and structural areas).

Gross Square Feet: The sum of the floor areas of the building included within the outside forces of exterior walls for all stories or areas that have floor surfaces.

Condition - Satisfactory: Suitable for continued use with normal maintenance.

Condition - Remodeling A: Requires restoration to present acceptable standards without major room use changes, alterations, or modernizations. The approximate cost of "Remodeling A" is not greater than 25% of the estimated replacement cost of the building.

Condition - Remodeling B: Requires major updating and/or modernization of the building. The approximate cost of "Remodeling B" is greater than 25%, but not greater than 50%, of the estimated replacement cost of the building.

Condition - Remodeling C: Requires major remodeling of the building. The approximate cost of "Remodeling C" is greater than 50% of the replacement cost of the building.

Condition - Demolition: Should be demolished or abandoned because the building is unsafe or structurally unsound, irrespective of the need for the space or the availability of funds for a replacement.

Condition - Termination: Planned termination or relinquishment of occupancy of the building for reasons other than unsafeness or structural unsoundness, such as abandonment of temporary units or vacation of leased space.

PART IV

FINANCES

FINANCES

Definitions of Selected Terms

REVENUES

Student Tuition and Fees: All tuition and fees assessed against students for educational and general purposes including remissions or exemptions not intended to be collected from students.

Private Gifts: Includes estimated value of services contributed by members of religious orders.

Other Sponsored Programs: All separately budgeted programs, other than research, which are supported by sponsors outside the institution. Examples are training programs, workshops, training and instructional institutes, college work-study programs, and similar activities for which payments are made in accordance with contracts, grants or other written agreements.

Other Organized Activities: Includes revenues of activities organized and operated in connection with instructional departments and conducted primarily to provide instructional or laboratory training of students. Also includes revenues for activities of a cultural nature such as concerts and dramatic productions.

Student Aid: Includes only payments to students for which no services or repayments are required.

Auxiliary Enterprises: Gross revenues of activities which furnish a service to students, faculty or staff and which charge a fee to cover the cost, or portion of cost, of the service. This includes college unions and intercollegiate athletics.

EXPENDITURES

Other Educational and General: Includes general executive and administrative offices, expenditures for services to students and staff benefits expenditures.

Auxiliary Enterprises: Includes physical plant charges, general instructional expenses, administrative charges, and other indirect costs.

Source of Data: HEGIS IX, 1974-75, Office of Education Form 2300-7
(The data is from the fiscal year ending 1974)

Note: The totals column for the two year public and private institutions is omitted because a significant number of these institutions did not participate in filling out the forms, making the totals inappropriate indicators.

PART V

RACIAL-ETHNIC ENROLLMENTS

RACIAL-ETHNIC ENROLLMENTS

Definitions of Selected Terms

Full-Time: Those students whose academic load is at least 75% of the normal full-time load.

Part-Time: Those students who carry loads less than 75% of the normal work load.

Source of Data: Compliance Report, Office for Civil Rights, U.S.O.E., Fall, 1974.

RACIAL-ETHNIC ENROLLMENTS
IN MICHIGAN COLLEGES AND UNIVERSITIES
FALL, 1974

In the fall of 1974, Michigan colleges and universities participated in the collection of survey data on student racial-ethnic enrollments for the Office for Civil Rights of the U.S. Department of Health, Education and Welfare. The bi-annual survey, "Compliance Reports of Institutions of Higher Education Under Title VI of the Civil Rights Act of 1964", collects student data from public baccalaureate, public community colleges, and independent colleges and universities in Michigan enrolled for the Fall, 1974 term.

The attached tables present a summary of responses to the survey. Completed survey responses were received from 91 public and independent institutions. The data are tabulated by racial-ethnic categories of American Indian, Black, Asian American, Spanish American, and All Other; by type of institution; and by level of instruction, undergraduate, graduate and part-time students. Comparisons to the 1970 and 1972 reports are included, except for part-time student data which was not included in the 1970 survey.

Limitations of Data

The following precautions should be observed in interpreting the data: (1) methods of obtaining the information may have varied considerably among the institutions, and thus the lack of standardization in definitions and procedures limit the capability to generalize upon the results; (2) a number of institutions, based upon voluntary racial-ethinic designation of students during registration, had high rates of non-response; (3) students attending extension centers rather than main campuses may not have been included in the survey, yet appear in other reports of enrollment; and (4) foreign minority students may appear in the survey data again detracting from the ability to generalize against other population data.

Summary of Results

Out of a total of 433,091 students reported in the survey, 51,563 (11.9%) students were minorities in the American Indian, Black, Asian American, or Spanish American category.

Of 230,859 full-time undergraduate students reported, 27,415 (11.9%) were included in the four minority racial-ethnic categories. This compares to 7.7% of the total reported for the fall, 1970 term and 10.6% in 1972.

At the graduate level, 2,953 (10.0%) out of 29,510 full-time students were reported in the American Indian, Black, Asian American or Spanish American categories, compared to an almost equal proportion,9.3% in 1970 and 9.2% in 1972.

Minority students comprised 9.2% of full-time undergraduate enrollments at public baccalaureate institutions compared to 8.6% in 1972; 15.7% of full-time public community college enrollments compared to 15.6% in 1972; and 13.3% of full-time nonpublic college and university enrollments compared to 11.6% in 1972.

For full-time graduate enrollments, 10.6% were in the four minority categories for public baccalaureate institutions compared to 9.4% in 1972; 6.2% of nonpublic enrollments compared to 7.1% in 1972 were in the minority category.

American Indian, Black, Asian American, and Spanish American students totaled 9.6% of total public baccalaureate enrollments; 14.2% for public community colleges; and 14.9% in non-public colleges and university for fall, 1974.

A total of 21,195 part-time minority enrollments was reported for all institutions for fall, 1974, compared to 17,892 in 1972. This represents an increase of 18,5% for part-time minority enrollment over the two year period.

PART VI

SALARIES AND TENURE

SALARIES AND TENURE

Definitions of Selected Terms

Instructional Faculty: Those staff members who are employed on a full-time basis and who devote more than one-half of their time to the teaching of classroom or laboratory courses during at least two semesters, three quarters, or two trimesters of the 1974-75 academic year.

Source of Data: HEGIS IX, 1974-75, Office of Education Form 2300-3.
